Rampage: The Singular Menace, Book 3

Synopsis

John Sandford and Michele Cook complete their New York Times best-selling thriller series in this explosive finale. Fans of James Dashner, Harlan Coben, and Suzanne Collins will love this nail-biting trilogy. Shay Remby and her band of renegade activists have got the corrupt Singular Corporation on the run. Their exposé is finally working. Or is it? Even as revelations about the human experimental subjects break in the news, Singular's employees are slithering out of sight. And then their CEO is killed in a plane crash.... Was it a freak accident? Or a cover-up? Shay's gang begins to see signs that there may be even more powerful figures than they knew managing events - publicly expressing outrage and mopping up the mess but secretly gathering up their scientists and moving the operation further out of sight. It will take nothing short of a rampage to stop the Singular menace for good....

Book Information

Audible Audio Edition

Best Sellers Rank: #25 in Books > Teens > Literature & Fiction > Social & Family Issues > Family > Siblings #280 in Books > Audible Audiobooks > Children's Books > Fiction #388 in Books > Teens > Science Fiction & Fantasy > Science Fiction

Customer Reviews

The third in a fine series by one of my favorite authors, John Sandford. Rather scary fictional trip into what unfortunately is reality to an increasing extent--the ability of those with no moral base to profoundly intrude into the lives of others with impunity.

The three full length books are really one 1,000 page novel. It is, of course, very important the they be read in sequence. It would be very hard to imagine that anyone could read the first one (Outrage) and not complete the next two. A completely new cast of Sanford characters are delightful in many ways, and he has plenty of time to fully develop them with that many pages. Great chance to

discover a new side of the Sanford(s).

John Sandford does a wonderful job with his Lucas Davenport series, but I have been surprised how much I enjoyed the Singular Menace series. The authors tied the loose ends up well, but still left the door ajar to continue with our red-headed heroine in another adventure in London. I hope it comes to fruition because the Singular Menace has been entertaining and delightful.

First I have read all of Sandford's novels. Are some better than others of course. I give this set of three a 4. I liked the first one in the set more than the last two. That said, I will read the full set again. Sandford and Cook have a good idea with this character and perhaps she will appear again. Hope she goes to college first though

This series started out great. A conspiracy an interesting key character and well written events and action. All three books are easy to read and leave you waiting for more. This third chapter delivers a satisfying conclusion so pick up this series and enjoy the ride •

While the first 2 in the series were quite good the third dragged on and on. I would have deleted maybe a third of the book to make it good. It was like a 3 hour movie that could have been great in an hour and a half .

The book reads slowly at the beginning without detail of the experimentation and how that starts the plot. Towards the middle it begins to read like a Sanford tale. It needs more explanation concerning the experimentation.

When I ordered Rampage, I had read books by John Sandford before and knew how good they were...great plots, etc. This was a joint effort and I missed that when I ordered and am happy to say that I enjoyed this duo authored book as well ! So my "mistake" turned out to be a great surprise!
