Coding Club Python: Programming Art Supplement 1

Synopsis

Create artistic applications to explore your creative side! Reinforce your programming knowledge from Python Basics and learn a few more tricks with this fun level 1 book. Activities include extending your Etch-a-Sketch and building your own drawing app. The code is suitable for Mac, Windows and Linux users and therefore compatible with the Raspberry Pi.

Book Information

Series: Coding Club

Paperback: 108 pages

Publisher: Cambridge University Press; Spi Sup edition (May 12, 2014)

Language: English

ISBN-10: 1107631092

ISBN-13: 978-1107631090

Product Dimensions: 6.6 x 0.3 x 9.4 inches

Shipping Weight: 10.6 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 starsÂ Â See all reviewsÂ (2 customer reviews)

Customer Reviews

I am a school teacher, and decided to order these to supplement what I was already teaching.. I teach middle school and high school students, but I have also let my 8 year old work through the book. I have rally enjoyed this book and the others in the series.

As far as I know, this is the only book aimed at teaching Python for art projects.It is a beautiful and motivating way to acquire programming skill regardless of your age.
